| <input type="checkbox"/> Fit | <input checked="" type="checkbox"/> No change in fit |
| <input type="checkbox"/> Function | <input checked="" type="checkbox"/> No Change in function |

If applicable, see description below.

Reason for Change - Information

Important components in these products are getting old and will be obsolete and disappear in a foreseeable future.

Obsolete components are not possible to purchase at all after a time.

Our policy is to inform and flag for this in time so our customers can prepare in time.

In this case we informed about the Phase Out and Coming End Of Production in PCN #0094 by 2018-03-14. Status for this product will now be set to EOP, End Of Production.

Customers who have purchased the current products in recent years are now offered to place a final order to meet the final needs of this product.

Note: It is important to send this final purchase order well in advance to receive the final manufacturing opportunities.

Recommendation

Please contact your contact person at CrossControl for information about alternative products or if you want to do reservations of units.

Because the availability of components for our manufacturing may be limited, we reserve to ensure that all requests can't be met.

If there is a situation with component shortage, it is the customers who first made reservations that have their reservations delivered.

You will find more information about our products here: <https://crosscontrol.com>

Information and dates

Last Order Date: 2020-06-12

Last Shipment Date: 2021-12-01

Depending on the decreasing production volumes and related manufacturing cost, MOQ, minimum order quantity is 5 units.
