10	S021 159-51	CCpilot V705, LinX-Base, CODESYS RT

Product Attribute Affected

- ☐ Material Change
- ☐ Design Change
- ☐ Software Change
- ☐ Other:
- ☐ Process Change
- ☐ Data Sheet Change
- ☒ Packing/Shipping Change

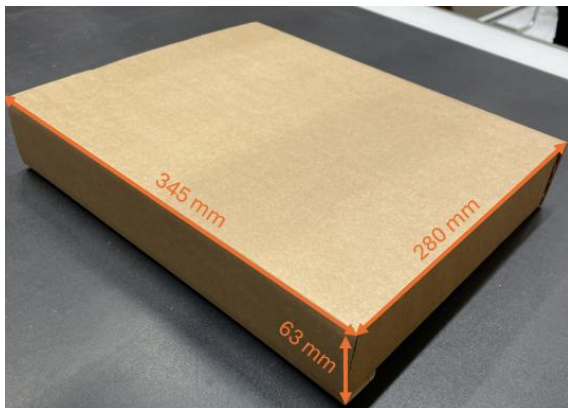

Impact of Change

- | | |
|-----------------------------------|---|
| ☐ Form | ☒ No change in form |
| ☐ Fit | ☒ No change in fit |
| ☐ Function | ☒ No Change in function |

If applicable, see description below.

Description of the Change

We will replace the current packaging material with a smaller one for our product V705.

Picture 1: Packaging used today

Picture 2: New smaller packaging

To align with upcoming EU regulations and to support our environmental objectives, we will transition to a smaller packaging format for product V705.

These new EU regulations that will come effective August 2026 says:

Packaging shall ensure that the void volume is reduced to what is strictly necessary to ensure the functionality of the packaging, including the protection of the product. The void volume ratio for consumer packaging means the difference between the total internal volume of the consumer packaging and the volume of the packaged product.

After evaluating similar products already using reduced packaging formats, we do not anticipate any risks associated with this change. The new packaging will continue to meet all functional and protective requirements.

Reason for Change

To comply with upcoming legislative changes and out of consideration for environmental aspects.

Recommendation

No specific recommendation.

Estimated Change Date

No earlier than 2025-10-15 [YYYY-MM-DD]
