| <input type="checkbox"/> Function | <input checked="" type="checkbox"/> No Change in function |

If applicable, see description below.

Reason for Change - Information

There are several reasons why we need to terminate this product:

- **Obsolescence:** The product family has an outdated design with a large proportion of old components that are expected to become obsolete, resulting in an increasing material problem for securing future manufacturing.
- **Introduction of new replacing products:** CrossControl has developed the below new up-to-date designed products with increased performance and long-lasting lifecycles, with the target of replacing the current product family.
 - o The **CCpilot V510** is a 5" display computer with a touch-screen, 8 physical buttons, and based on an i.MX 8DualXPlus processor, see [CCpilot V510](#).
 - o The **CCpilot V700** is a 7" display computer with a touch-screen and based on an i.MX 8DualXPlus processor, see [CCpilot V700](#).
 - o The **CCpilot V705** is a 7" display computer with a touch-screen and based on an i.MX 8DualXPlus processor, see: [CCpilot V705](#).)
 - o The **CCpilot V710** is a 7" display computer with a touch-screen, 10 physical buttons and based on an i.MX 8DualXPlus processor, see [CCpilot V710](#).

Recommendation

CrossControl recommends replacing the products with the CCpilot V510, CCpilot V700, CCpilot V705 or CCpilot V710. Also, CCpilot V1000 or CCpilot V1200 can be considered if a larger display is desired.

- Review current and future product family needs so it lasts until a replacement is implemented and for future spare parts needs.
- Place a Last-Time-Buy order in time as per the date below.
- After the stated date, CrossControl closes the possibility of placing new purchase orders for these products.
- CrossControl can assist in the implementation of replacement products.

Please contact your sales representative about Last-Time-Buy and replacing products.
