- |                                     |          |                                               |
|-------------------------------------|----------|-----------------------------------------------|
| <input type="checkbox"/>            | Form     | No change in form                             |
| <input type="checkbox"/>            | Fit      | No change in fit                              |
| <input checked="" type="checkbox"/> | Function | Enhanced functionality, see description below |

**Description of Change**

New Linux image version, 1.2.0.0

**Reason for Change**

A number of bug fixes and enhancements have been made to the image. Refer to the release notes for details.

Deliverables:

- CCpilot VS standard image 1.2.0.0
- CCpilot VS BSP 1.2.0.0
- CCpilot VS SDK 1.2.0.0
- CCpilot VS - Software Guide rev C
- CCPilot VS - Programmer's guide rev B

**Recommendation**

Download the new image and verify that your applications work properly with the new version. All information and the image can be found here:

<https://support.crosscontrol.com/>

Log in and click to "Product information", "Display computers", "CCpilot VS"

**Estimated Change Date**

This new image version will be introduced in all production deliveries from 2018-09-09.

The change will be identified on the units by the revision number in table above.
